

## Agent 009 at Your Local Library

May 2009

Dear Principal,

The TD Summer Reading Club is designed to motivate your students to develop and improve their reading skills throughout the summer by various fun-filled incentives and activities. (name of your library) is one of hundreds of libraries participating in this free, national joint initiative between TD Bank Financial Group, Library and Archives Canada and the Toronto Public Library.

This year's dynamic theme features *Agent 009* as a canine detective solving mysteries. When children register at their local library, they will receive an exciting reading kit comprising a poster, nine stickers and a full-colour activity booklet. This year, as we celebrate the 200th anniversary of Braille, they will also receive a complimentary Braille sticker.

But we need your help to spread the word to your staff and students about the TD Summer Reading Club. Enclosed are invitations for all students to receive with their final report cards. As well, please showcase in your school our fabulous Club poster created by illustrator Werner Zimmermann. If your school has a librarian please enlist his or her help in promoting this Club to your students.

To make this program an even greater success, tell your students that this summer they can help Agent 009 in solving mysterious cases when they join the TD Summer Reading Club at (name of your library).

Please contact (name of your library) for more information or check out the bilingual website at <http://www.td-club-td.ca/>

Thank you for your support!

Sincerely,

Your local librarian
