

AGENT 009 FOR YOUNG DETECTIVES

Dear Early Childhood Educator,

As an early literacy specialist, you know that the benefits of parents or caregivers reading aloud to children from an early age are incalculable. Reading develops children's imagination, they learn new vocabulary, expand their memory, and reading instills self confidence.

The TD Summer Reading Club is a free and bilingual program that offers families a fun way to enjoy reading during the summer months.

This year's dynamic theme features *Agent 009* as a canine detective solving mysteries. When children register at (name of local library), they will receive an exciting reading kit comprising:

-  a Club poster;
-  nine stickers; and a complimentary Braille sticker to celebrate the 200th anniversary of Braille;
-  a full-colour activity booklet.

Our library has also developed a whole summer program filled with fun activities.

We ask that you encourage parents to enroll their children in it. Enclosed are invitations for your class, as well as the Club poster created by illustrator Werner Zimmermann for display.

For more information or to arrange for a class visit or library tour please contact us (name, phone number and email)

This award-winning program is a joint initiative between TD Bank Financial Group, Library and Archives Canada and the Toronto Public Library. You can also visit the website at <http://www.td-club-td.ca/>

Thank you for your support!

Sincerely,

Your local librarian
