Trench Mortar Batteries and Groups

Introduction

Each division had a trench mortar group, which was composed of one heavy battery and three medium batteries. Each infantry brigade had a light trench mortar battery which contained eight mortars organized into four batteries. A GHQ letter of 15 December 1915 authorized the formation of two light trench mortar batteries in each brigade. Another GHQ letter (9 September 1916) authorized that the two brigade batteries be combined, taking the brigade number for the new battery designation (RG 9 III, vol. 4339, folder 6, file 4). The establishment apparently consisted of the officer commanding, four section officers and 60 other ranks.

Guide to Sources Relating to Units of the Canadian Expeditionary Force

1st Canadian Divisional Trench Mortar Group

Background Information

Organized at Neuve Eglise, Belgium in March 1916 under the command of Captain C. S. Hanson.

Composed of VIC (Heavy) Battery and XIC, YIC and ZIC (Medium) Batteries.

Disbanded at Onnaing on 17 November 1918.
